Probe

Delivering quality products & solutions

Over 60 years in the making

Providing industry-leading storage products through a nationwide network of distributors, you benefit from our decades of experience and know-how to best serve your customers.

Unrivalled in the locker market, our design-led features, modern aesthetics, and unparalleled support materials enable us to meet the secure storage requirements of any sector.

Manufacturing excellence

With an extensive range of locker types available in various sizes, configurations, materials and colours, you can fulfil the requirements of any working environment.

Operating in accordance with the latest ISO standards and NEBOSH regulations, quality is assured across all our UK manufacturing locations.

As a Made in Britain member, you and your customers are guaranteed that all Probe products are manufactured here in the UK and meet the highest British standards.

Being a trusted Whittan brand, we are dedicated to enhancing our environmental, social and ethical impact. Our Gold EcoVadis rating recognises our commitment to fostering sustainable business practices and reducing Greenhouse Gas (GHG) emissions.

When you choose Probe, you benefit from shorter lead times, less supply chain risks and better customer service.

Proven standards

Unrivalled in the locker market to provide unmatched quality and satisfaction, Probe products are manufactured to the highest quality standards to meet the secure storage requirements of your customers.

PROBE**FIREZERO**

Independently tested for Fire combustibility and adhering to European Standard: EN 13501-1: 2007 +A1: 2009, Probe lockers are built to endure the extreme temperatures experienced in the outbreak of a fire and will not:

- Combust
- Increase
- Sustain any fire within its proximity

MEETS BS 4680: 1996

excluding size specification

Probe lockers have been independently tested and conform to BS 4680:1996, meeting British standards for quality and safety, to provide your customers with secure and reliable storage solutions.

Warranty

Committed to enhancing the quality and durability of our products, our lockers come with a 7-year warranty on the carcass and a 5-year warranty on electrical components for peace of mind for you and your customers.

AC+IVECOAT anti-bacterial technology

Reduce cross-contamination

Included as standard in the powder coating process, ActiveCoat prevents the growth and migration of potentially harmful bacteria, mould, fungi, algae and more, reducing the risk of cross-contamination from surface to surface.

- ✓ 99.9% reduction in E-coli & MRSA super bug
- ✓ Independently tested
- ✓ 100% safe to humans
- ✓ Effective for the life of the coating

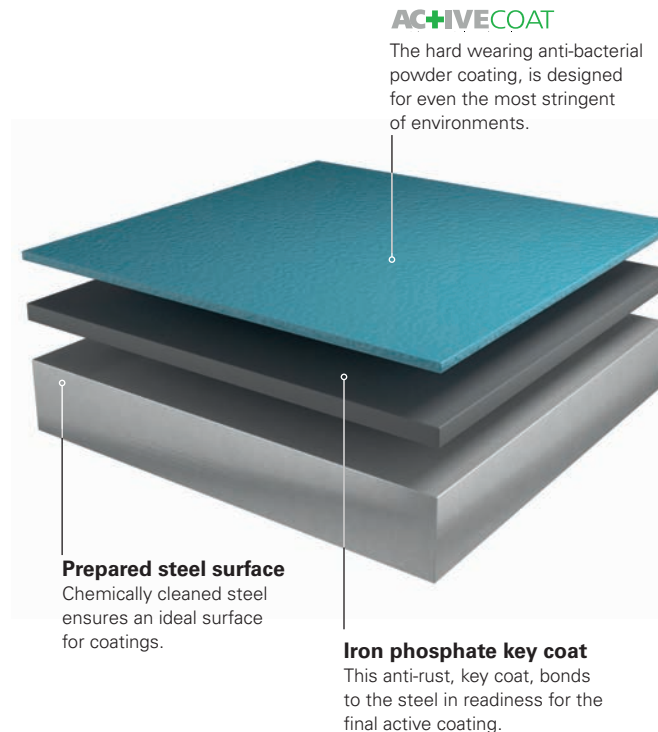

All plastic components used in the manufacture of Probe products incorporate a silver-based anti-bacterial agent.

Independently tested and verified

ActiveCoat has been independently tested and verified to conform to ISO 2219. Offering strong antibacterial properties against the most widely encountered and problematic organisms, ActiveCoat effectively reduces bacteria populations by 99.9%.

Long term protection

Unlike anti-bacterial sprays and chemical disinfectants which rely on repeated application, ActiveCoat contains anti-bacterial agents distributed throughout the powder coating, continuing to offer antimicrobial properties for the life of the coating.

The science behind the solution

Operating on a molecular level, ActiveCoat is highly effective at very low concentrations. The silver-based additives fight microbes on three fronts:

- They bind with the cell wall and impede growth.
- They inhibit enzyme production, hampering the cell's ability to produce energy.
- They disrupt cells' DNA, preventing cellular replication.

This three-pronged attack stops microbes in their tracks and drastically reduces microbial load on treated surfaces.

Solutions for every sector

From office to industrial, education to leisure, medical to manufacturing, indoor or outdoor, wet or dry, front of house or back of house, we have an innovative solution for any environment.

Locker features & benefits

Our steel lockers are a great way to provide durable personal storage in schools, factories and offices and dry areas in sport centres and gyms. Our metal lockers are designed to withstand regular use and resist daily wear and tear making them ideal for use in busy environments.

Lockers can be supplied as nested units with lockers of the same overall dimensions, sharing common side panels, manufactured and supplied fitted together. Locker nesting makes efficiencies in manufacture, delivery, installation and space utilisation.

Steel locker colours

Workwear lockers

Keeping clean garments and soiled work overalls separate can often be a problem.

- Clean & Dirty locker solves this by providing a centre partition with a double coat hook to either side.
- Identical in overall size, the Uniforms Locker has three handy shelves to one side of the partition.
- Space saving Two person and Twin lockers can accommodate two people in the same amount of space as single door locker.

ACTIVECOAT
ActiveCoat technology as standard.

Clean & Dirty locker

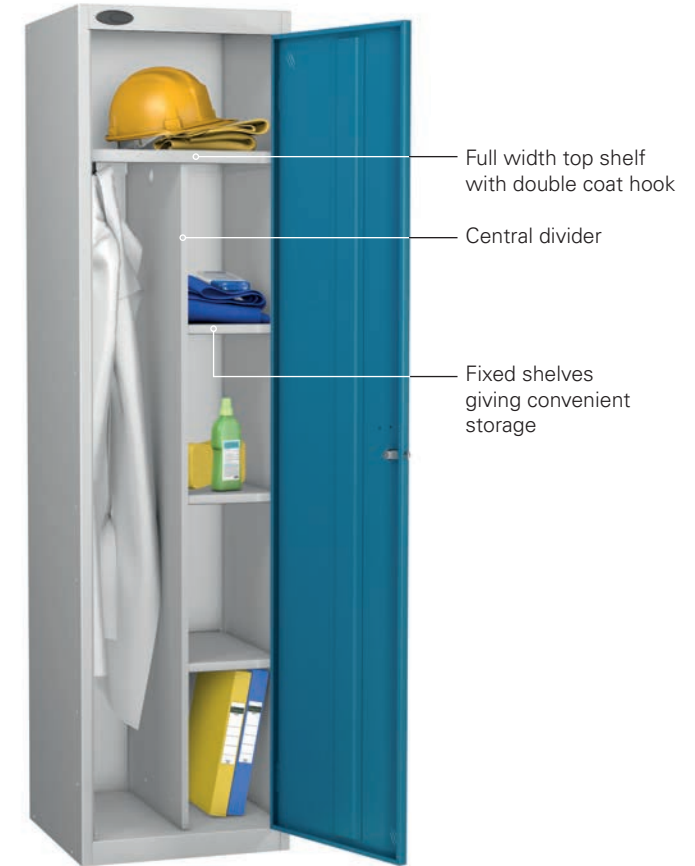

Complete with full width internal top shelf 305mm high, vertical centre partition and two double coat hooks.

W 460 x D 460 mm

Top compartment height – 305mm

Uniform / Janitors locker

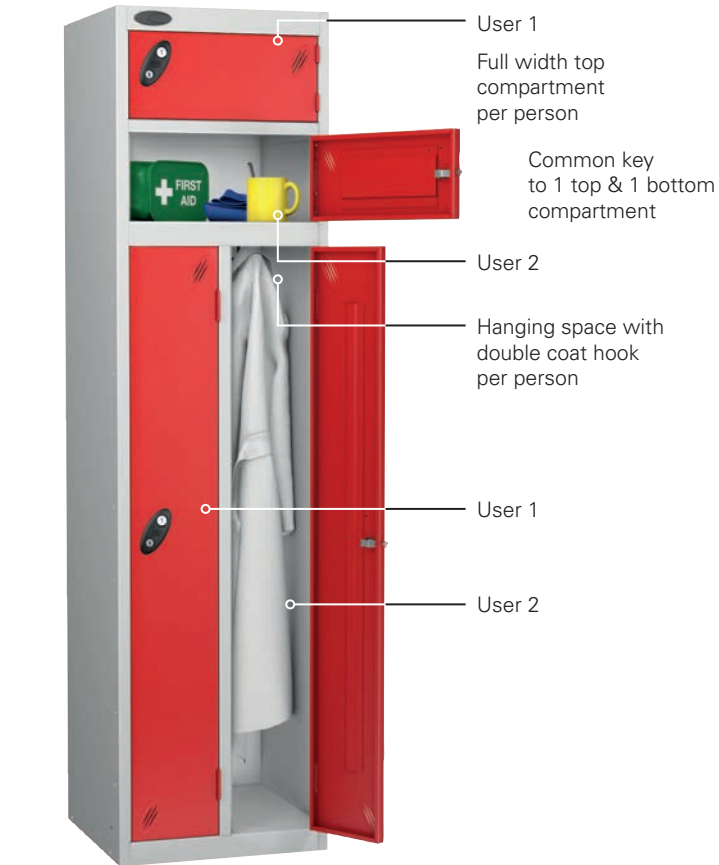

Complete with full width internal top shelf 305mm high, vertical centre partition, double coat hook and a further three half width shelves.

W 460 x D 460 mm

Top compartment height – 305mm

Two person locker

Provides two sections per user with a common key to fit both.
One, 180mm high, full width compartment at the top of the locker and a vertical compartment fitted with a double coat hook.

W 460 x D 460 mm

Top door height- 180mm

Twin locker

Each compartment comes with 305mm high internal top shelf and a double coat hook.

W 460 x D 460 mm

Top compartment height – 305mm

Sloping tops are available on our garment lockers. They are essential in hygiene sensitive locations (such as hospitals and the food industry). The slope prevents items and litter being left on locker tops and makes cleaning easier. Sloping tops increase the overall height of the locker.

Two hardwood slats and metal framework form a bench seat in front of the locker, allowing full access to the locker. Units are 400mm high and are complete with adjustable feet.

Lockers are often used in areas where floors need frequent cleaning. Locker stands are 150mm high providing easy floor access.

Large capacity lockers

These larger lockers are ideal for storing bulky items of protective clothing or uniforms safe and secure.

Hi-capacity locker

Extra wide locker for storing bulky clothing and work wear. Doors feature 2 door locking.
No other lock options available

W 610 x D 460 mm

Police locker

The Probe Police Locker is designed specifically to accommodate personal body armour and each compartment includes a top shelf and double coat hook.

W 460 x D 550 mm

See **page 7** for colour options.

See **pages 44** for locking options.

AC+IVECOAT

ActiveCoat technology as standard.

Probe Lockers

Garment dispensers/collector

Garment dispensers

Single service door

The full-height main door allows access to all of the individual compartments, for re-stocking with laundered clothing.

Individual access

Lockers provide each worker with access to their secure compartment; to collect a freshly laundered issue of clothing.

A single service door provides access to all the inner compartments of these Garment Dispensers enabling the distribution of clean garments, towels etc. Individual compartments remain secure and require keyed access.

W 380 x D 460 mm

Garment collector

Workers 'post' their used garments into an adjacent Collection Locker. This separation of clean and used items can help in maintaining a hygienic working environment.

W 380 x D 460mm

MINIBOX steel lockers

When space is at a premium these multi compartment lockers offer greatly increased compartments for the locker footprint.

- They can be the perfect solution to storing personal effects, electronic devices like phones just about anything small you need to lock away.

Security lockers - providing a visual deterrent to theft

Probe Clear View and Vision lockers allow employees to store personal belongings securely while providing a visual deterrent, offering a clear view of the interior of each compartment.

With the addition of clear polycarbonate vision panels in each compartment, Vision lockers provide visibility of the contents of each locker.

- Allows compartment inspection from outside the door.
- Deters concealment within the locker.
- Available in nests of 1, 2 or 3.
- Ideal for retail, stockroom and warehouse environments.

See **page 5** for colour options.

See **pages 41** for locking options.

ACTIVECOAT

ActiveCoat technology as standard.

Vision Lockers

Probe Lockers

Clear View lockers, complete with 4 mm shatter-proof clear polycarbonate doors, allow an unrestricted view of the locker and the entirety of its contents without unlocking the locker door.

- The ideal deterrent for businesses at risk of losing high-value stock.
- Coin-operated locks not available on 5 or 6 compartment lockers.
- A welded plinth between each compartment for added strength.
- Available in nests of 1, 2 or 3.
- Ideal for retail, stockroom and warehouse environments.

Clear View Lockers

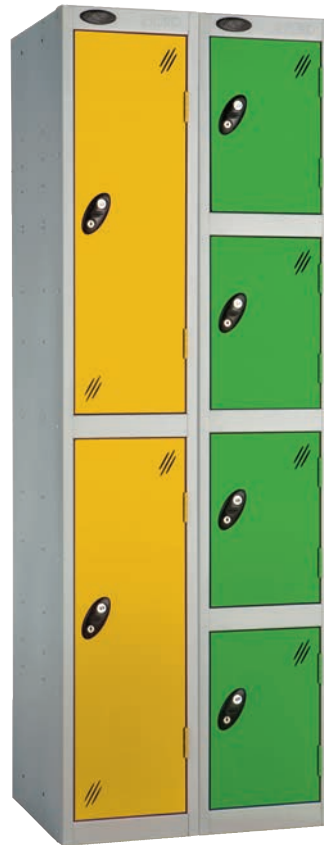

Education lockers

With many years of experience supplying innovative storage solutions for schools, colleges and universities, our range of steel lockers can be used across all age groups.

Education lockers have been specifically designed with users in mind, ensuring lockers and compartments are within the height range of the user age group for easy access and reach.

- Quarto, cube and low lockers are ideal for **key stage 1**.
- For **key stage 2** three quarter height lockers ensure pupils do not stretch or overreach to use them.
- For **key stage 3** and higher education full height steel, laminate and aluminium lockers fit the bill.
- A wide range of charging lockers are also available, offering safe and secure charging for computers, laptops and other electronic devices around educational facilities. (See Page 26 for more info)

Ideal in changing rooms, lockers stands and benches provide users with secure storage whilst offering bench seating.

- Full access to the locker.
- Units come complete with adjustable feet.
- Two beech slats and metal framework form a bench seat.
- Stand height 400mm.

Numbered key fobs

Made in various coloured plastic and engraved and printed to any number and/or alpha character of your choice.

SHOCKBOX laminate door dry area lockers

With durable laminate doors that are less likely to scratch, dent or be damaged, **SHOCKBOX** is suited to dry areas that receive high volumes of traffic and use.

- Available in a range of colours.
- Choose from our Standard Range or specify a laminate to match your architectural design.

Inset doors

Provide a visual contrast between the door finish and the locker frame.

Overlay doors

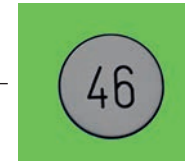

Cover the front face of the locker body, creating a wall of colour.

See **page 43** for colour options.

See **pages 44** for locking options.

Numbering system

Optional number plates will be recessed into door if ordered with lockers.

HINGE SECURING PLATE

This strong hinge incorporates an integral securing plate which clamps the door to the hinge giving added security.

180° hinge

Hinges open through a wide 180° for ease of access.

Welded shelf plinth

High security welded compartment divider incorporating internal door stop and sill.

Laminate doors are available in a vast range of contemporary colours from leading manufacturers. Choose from our Standard Range or specify a laminate to match your architectural design.

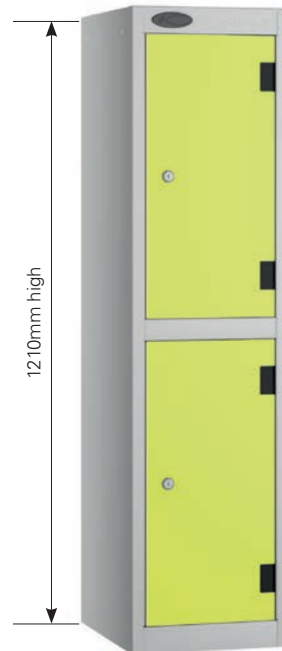

Formica and the Formica anvil device are registered trademarks of The Diller Corporation.

Double coat hook per compartment.
W 380 x D 460 mm

Available in 1, 2, 3 and 4 compartments and low 2 compartment with Inset or Overlay doors.

Low Two compartment
W 305 x D 460/470 mm

Single compartment	Two compartment	Three compartment	Four compartment
Fixed top shelf with double coat hook.	Double coat hook per compartment.		
		W 305 x D 380/390 mm	
		W 305 x D 460/470 mm	

End panels to match the doors

End panels can be manufactured to add on to the end of locker runs or to the side of each individual locker if required.

ZENBOX aluminium wet area lockers

Designed and engineered ZENBOX lockers are the perfect choice for demanding environments.

ZENBOX lockers are designed and engineered to withstand the rigours of high use wet area environments where the requirements of design with durability and image are paramount.

End panels to match doors

End panels can be manufactured to add on to the end of locker runs or to the side of each individual locker if required.

Numbering system

Optional number plates will be recessed into door if ordered with lockers.

Aluminium Body

Aluminium shelves, fixed firmly into position adding rigidity to the locker. Aluminium body with reduced radius corners give full width shelf to back of locker and aid cleaning.

Extensive range of lock options

A range of quality engineered locks available for wet, humid or dry environments.

10mm Solid Grade Laminate (SGL) doors

Super strong and stylish doors available in many contemporary colours.

Precision Engineered

All lockers are supplied fully assembled and can be nested side by side with no visible gaps.

Available in 1, 2, 3, 4 and 6 compartments

W 300 x D 400 mm
W 300 x D 450 mm
W 300 x D 500 mm
W 400 x D 400 mm
W 400 x D 450 mm

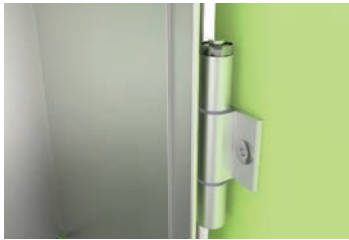

See **page 43** for colour options.

See **pages 45** for locking options.

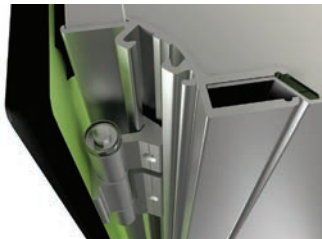

ZENBOXULTRA outdoor locker

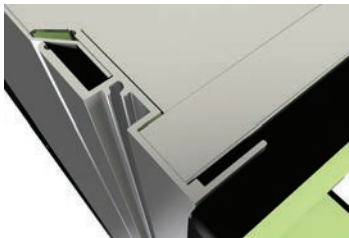

Heavy duty self-closing hinges engineered to prevent the doors opening across adjacent compartment.

Incorporating all the benefits of the standard ZENBOX locker, ZENBOXULTRA features solid grade laminate doors and added door seals, making them the perfect choice for:

- Leisure Centres
- Swimming Pools
- Schools
- Gyms
- Spas
- Outdoor areas

Concealed hinge within extruded aluminium frames engineered for added strength and stability.

Flush frame for zero gap when lockers are nested.

End panels to match doors

End panels can be manufactured to add on to the end of locker runs or to the side of each individual locker if required.

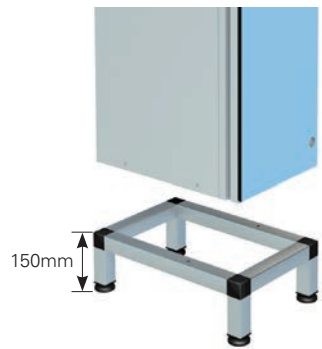

Integral door seal

This seal ensures there is no water ingress into the locker compartment.

Available in 1, 2, 3, 4 and 6 compartments

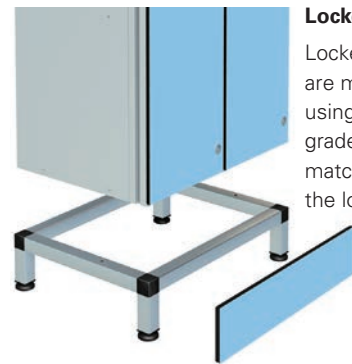

- W 300 x D 400 mm
- W 300 x D 450 mm
- W 300 x D 500 mm
- W 400 x D 400 mm
- W 400 x D 450 mm

ZENBOX accessories

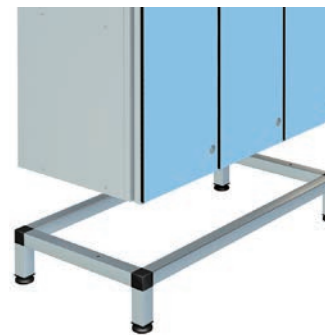

Adjustable feet

All support stands come with adjustable feet for sloping floors.

Locker stand plinths

Locker stand plinths are manufactured using 10mm Solid grade laminate (SGL) to match or contrast with the locker doors.

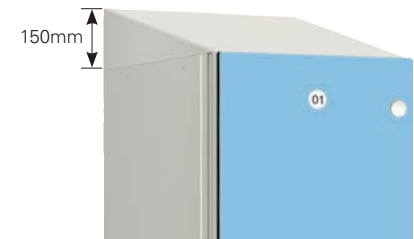

Aluminium Locker Support Stands

Locker support stands raise lockers off the floor, reducing impact damage and making cleaning easier. Manufactured from 25mm square aluminium section they are ideal for wet environments.

All units come complete with adjustable feet to aid levelling on uneven floors.

Optional 10mm solid grade laminate (SGL) plinth available to match or contrast with the locker doors.

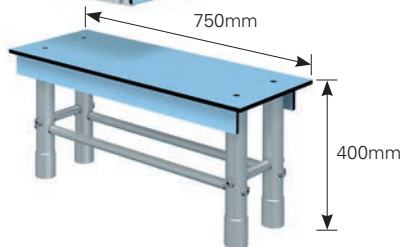

Sloping Top

Sloping tops are a good way of preventing litter, bags and other items being left on top of the lockers. The sloping top also makes cleaning easier. Sloping tops are essential in hygiene – sensitive applications such as the NHS or food preparation.

Adjustable feet

All support stands come with adjustable feet for sloping floors.

Locker seat plinths

Locker seat plinths are manufactured using 10mm solid grade laminate (SGL) to match or contrast with the locker doors.

Aluminium Seats and Stands

10mm solid grade laminate seat (SGL) and 45mm aluminium framework form a bench seat in front of the locker, allowing full access to the locker.

Seat can match or contrast with the locker door or with an optional SGL plinth.

All units come complete with adjustable feet to aid levelling on uneven floors.

Numbering System

Optional inset number plates are available. Discs are recessed into the door. Request when placing order.

Laminate door colour options

SHOCKBOX stock 10mm SGL door finishes - steel Silver body. Choice of inset or plant-on doors.

ZENBOX and ZENBOXULTRA stock 10mm SGL door finishes - aluminium body

Create a storage solution that closely matches your branding or blends subtly into the background with a range of coloured door options to choose from.

Choose from our Standard range or specify a laminate to match your architectural design.

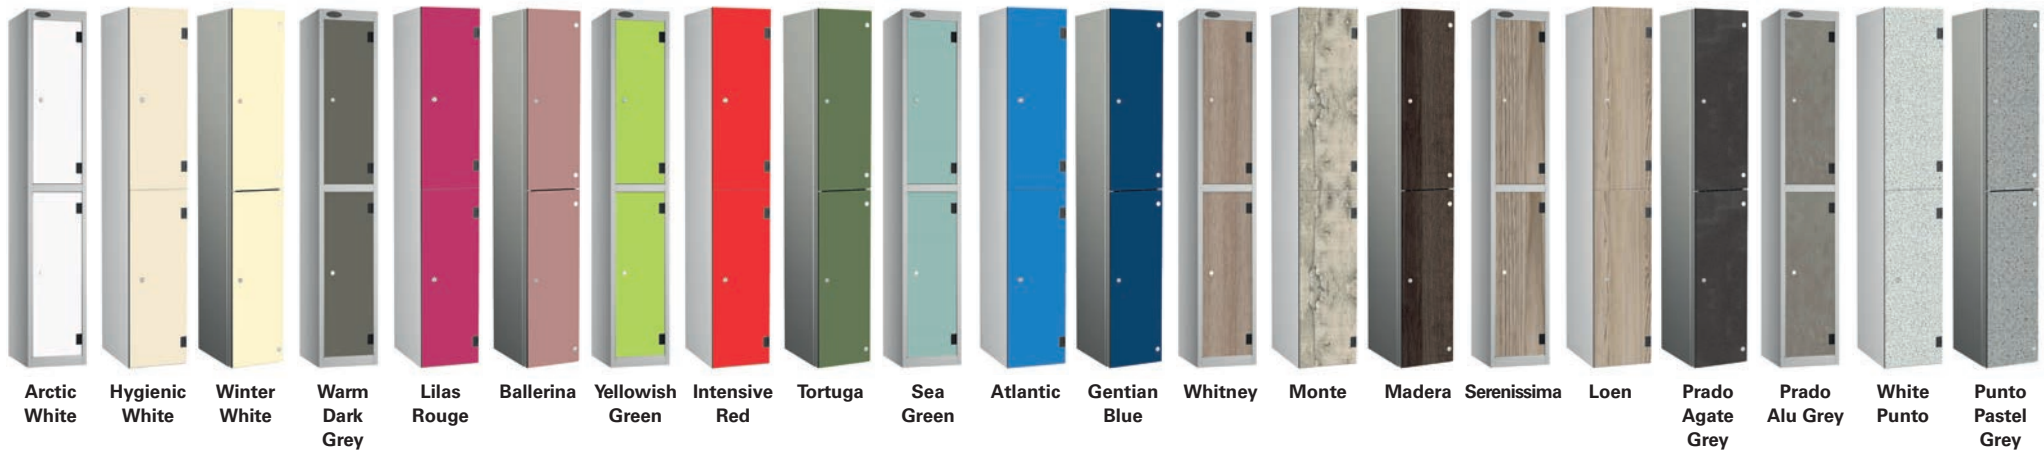

Formica and the Formica anvil device are registered trademarks of The Diller Corporation.

Solid grade laminate with fire classification available at additional cost.

Please ask us for further information on fire classifications and applications.

SHOCKBOX, ZENBOX and ZENBOXULTRA additional door colour 10mm SGL door finish options are below, available on an extended lead time.

Please note that due to printing restrictions colours represented may differ from original product. We recommend you request a colour swatch before ordering.

Cupboards

We have an extensive collection of storage cupboards suitable for a range of commercial and office environments.

These cupboards are manufactured in the UK in a range of heights, widths and internal configurations to meet a wide variety of applications in the workplace.

Available in 3 colours along with 6 bright door colours to fit into any workplace.

Choice of 2 shelf loadings – **65kg** or **85kg** (UDL) – allowing you tailor your shelf capacity to the items being stored. This is further enhanced as shelves sit on clips allowing the shelf pitch to be adjusted in 25mm increments to accommodate taller items.

Door frames manufactured from 1.0mm mild steel, doors 0.9mm, body and panels from 0.7mm.

ACTIVECOAT

All painted components are protected with a powder coating which incorporates ActiveCoat anti-bacterial technology.

ActiveCoat has been tested by an Internationally recognised microbiological testing laboratory for antibacterial performance, against the most widely encountered and problematic organisms including the MRSA Super bug and E-coli. These micro-organisms suffered a 99.9% reduction in population.

Probe Lockers

Workplace Cupboards

A range of steel cupboards designed to meet general and janitorial storage needs throughout the workplace, all available in a variety of sizes and configurations.

- Choice of 6 door colours with 3 body colours.
- Doors feature 2 point locking and full height stiffeners.
